Tsinghua University
Mr QIU Yong

Dear President Yong,

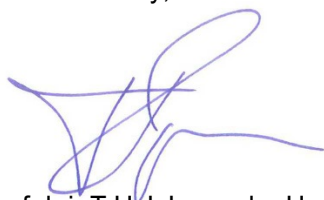

It is an honor to congratulate all of you at the 110th anniversary of Tsinghua University.

Delft University of Technology and Tsinghua University have a shared history of collaboration since 1982 in which we experienced Tsinghua as a pillar of higher education excellence that elevates science and technology to unite people and create a better world.

We have not only exchanged professors, students and knowledge in fields such as water management and smart mobility but we also envisage a fruitful collaboration over the next decades to come.

I personally wish Tsinghua University every success and congratulations once again on their 110th anniversary.

Yours sincerely,

Prof.dr.ir T.H.J.J. van der Hagen
Rector Magnificus / President
