

David Garza, President of Tecnológico de Monterrey, México

It is an honor for me to address you on the 110th anniversary of Tsinghua University, over a century dedicated to the well-being of Chinese society and to world development, by preparing the best students ready to deal with the challenges of the 21st century.

While much has changed over the past century, Tsinghua has witnessed and participated in the rise of a nation with extraordinary students, professors, alumni, and staff members, who always strive for excellence.

Throughout more than one hundred years of challenges and transformations, Tsinghua has positioned itself as one of the most prestigious universities in the world, cultivating “global citizens who will thrive in today’s world and become tomorrow’s leaders”. Tsinghua has been a key part of the last century history, supporting very talented faculty, who have been working on National and International Key Research and Development Projects, and have provided students with strong foundations of knowledge, experiences, and life skills, ready to innovate for the future.

I am sincerely grateful for allowing us Tec de Monterrey, to be part of your history, touching and transforming the lives of our most talented students, who after being at Tsinghua University, have returned to our country full of life, focus and learning experiences. Years of partnership make us stronger, even under the most uncertain times, as the ones we are living now.

Congratulations on this symbolic anniversary. On behalf of Tecnológico de Monterrey’s and all our community, please receive our best wishes for a prosperous future.

Happy anniversary Tsinghua! Feliz aniversario Tsinghua!
